📄 PROFILE

I am a B.Tech graduate in Computer Science with 1 year of experience as a Lecturer in the Computer Science Department at RLSY College. I specialize in teaching core concepts of computer science, including programming, data analysis, and technology integration. Known for effectively simplifying complex topics, I am dedicated to inspiring students and fostering their technical growth. Committed to continuous learning, I aim to leverage my technical knowledge to contribute meaningfully to education and the field of computer science.

📁 PROJECTS

Insurance_clain_fraud_detection

01/2023 – 05/2023

The Project was divided into two phases:

- Phase 1- Collecting property data through web scraping using Selenium.
- Phase 2- Developing machine learning models to predict property price, carpet area, and property type, including EDA and preprocessing steps.
- Tech Stack: Python, Selenium, Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn.
- Used Power Transformation to improve predictions.

🎓 EDUCATION

Bachelor of Technology

Galgotias University

06/2019 – 05/2023 | Noida, India

Intermediate

Mangal Seminary

06/2017 – 04/2019 | Motihari, India

High School

Saraswati Vidya Mandir

04/2016 – 05/2017 | Bettiah, India

📁 PROFESSIONAL EXPERIENCE

Lecturer, Computer Science Department

RLSY College

01/2024 – present | Bettiah, India

- Teach programming, data structures, and software development, helping students build a strong technical foundation.
- Use practical examples to make complex topics simple and relatable for better understanding.
- Guide students on projects to develop problem-solving and technical skills for career growth.
- Update the curriculum with modern tools and technologies to align with industry standards.

Software Development Intern

Railworld India Pvt Ltd

05/2023 – 10/2023 | Noida, India

- Worked on software development projects under the guidance of a senior, helping to write code and fix issues.
- Assisted in creating new features and improving existing software systems.
- Gained experience in different programming languages and technologies.
- Helped with testing and solving problems to ensure the software worked correctly.

🧠 SKILLS

- Python
- AI & Machine Learning
- SQL
- DBMS
- Excel
- JAVASCRIPT
- CSS
- HTML

📄 CERTIFICATES

- Python Programming For Data Science
- Applied Machine Learning using Python
