

Subject: "Application for a Suitable Faculty Position"

Dear Sir/Madam,

I am writing to express my keen interest in suitable faculty position at your esteemed institution. I hold a Master's degree in Environmental Science with a focus on wastewater treatment, and both M.Phil and Ph.D degrees in Energy and Environment. My Ph.D. research, titled "Impact of Crop Residue Burning on the Ambient Aerosol and Soil in Rural Areas", addressed key areas such as aerosol pollution, soil contamination, and climate change. I have also qualified UGC-NET (2012) and ICAR NET (2014) in Environmental Sciences, demonstrating my strong academic foundation in environmental science.

With around eight years of teaching experience at the M.Sc. (Environmental Science) level at P.G. College, Ghazipur (An Aided degree College) and a strong foundation in both academic, research and environmental consultancy, I am confident in my ability to contribute meaningfully to your department's academic and research goals. During my academic tenure, I have taught a range of papers including Environmental law and legislation & EIA, air pollution, climatology & meteorology, water pollution, and environmental microbiology & biotechnology. My teaching approach emphasizes both conceptual clarity and real-world applicability, aiming to prepare students for careers in academia, research, and the environmental sector.

I also worked for more than two years as a Project Fellow and subsequently as a Junior Research Fellow on a DST-funded research project titled "Design and Development of Horizontal Gasifier for Biomass Materials" (funded by the Ministry, GOI). This research experience strengthened my foundation in renewable energy technologies and experimental research methods, particularly in the field of biomass gasification and sustainable energy systems.

In addition to academia and research, with nearly two years of experience as an Executive-EHS at EHS Consultants, Indore, I was responsible for conducting air, water, and soil monitoring and data interpretation, preparing EIA and environmental statement reports (Form V), and coordinating with government organizations. I also designed and documented QMS management systems, delivered awareness and competence training on wastewater treatment, environmental impact evaluation, chemical handling, waste management, and conducted training sessions for workers on EMS, OHSMS, and regulatory compliance. Along with this, nearly one year of experience as Senior Environmental Officer at Enkay Enviro Services Pvt. Ltd., Jaipur, I prepared Draft and Final Environmental Impact Assessment (EIA) reports for industrial projects to facilitate the Environmental Clearance (EC) process.

I believe that my interdisciplinary experience across teaching, research and consultancy places me in a unique position to offer a holistic and application-oriented perspective to students.

I am enclosing my curriculum vitae for your kind perusal. I would be honored to contribute to your institution's commitment to academic excellence and environmental stewardship. Thank you for considering my application. I look forward to the opportunity for an interview to discuss how I can contribute to your faculty.

Yours sincerely,

Dr. Satyendra Tripathi

Presentation: Papers and Posters • Presented poster titled “Impact of Crop Residue Burning on Climate Change: A Scenario of Madhya Pradesh” at 1st International Young Scientist Congress-2015 organized by International Science Congress Association at Indore, M.P (India) during 8th& 9th August 2015. • Presented paper titled “Effects on Macronutrients of Black Soil in Central India due to Crop Residue Burning” at 30th Madhya Pradesh Young Scientist Congress -2015
--	---

	organized by Madhya Pradesh Council of Science and Technology (MPCST), Bhopal during 28 February to 1 March 2015. • Presented poster titled “Influence of Wheat Residue Burning on Physico-Chemical Characteristics of Soil” at 4th Bhartiya Vigyan Sammelan & Expo 2015 jointly organized at Goa by Vijnana Bharati, Government of Goa and Goa University during 6-8 February, 2015 • Presented paper titled “Impact of Wheat Residue Burning on Physical Properties of Black Soil” at International conference on Emerging Challenges in Biotechnology, Human Health and Environment & 8th Annual Convention of Association of Biotechnology and Pharmacy organized by School of Studies in Biotechnology, Devi Ahilya University, Indore from 18-20 December 2014. • Presented Poster titled “Effect of Biodiesel residue on soil properties” at International Conference on Health, Environment and Industrial Biotechnology organized by MNNIT Allahabad from 21-23 November 2013. • Presented Paper titled “Emissions from crop/biomass residue burning risk to atmospheric quality: A Review” at II International Science Congress organized at Mathura from 8-9 Dec 2012. • Presented Paper titled “A Review on Crop residue burning and other management options for crop residue” at National Symposium on Green Chemistry and Technology for Sustainable Development organized by GCET, Vallabh Vidyanagar, Gujarat from 24-25 Feb 2012. • Presented Paper titled “Crop residue burning is a boon or curse for soil- A Review” at national conference on Recent Advancements in science, Technology & Management organized by Vindhya Institute of Technology and Science, Indore from 12-13 November 2011.
	Conferences / Seminars / Workshop Attended • Attended National conference (Bhartiya Vigyan Sammelan) on “Green Technology for sustainable development” held at Devi Ahilya Vishwavidyalaya, Indore. (M.P.) on 1-3 December 2009. • Attended National Seminar on “Climate Change” held at School of Studies in Botany, Vikram University, Ujjain (M.P.) on 5th June 2010. • Attended Seminar on “Clean energy options and nuclear safety” held at Devi Ahilya Vishwavidyalaya, Indore. (M.P.) sponsored by Madhya Pradesh Council of Science & Technology, Bhopal & Rastriya Vigyan evan Prodhogiki Sanchar Parishad, New Delhi on 12 April 2012. • Attended Seminar on “Genetically modified Crops” held at Devi Ahilya Vishwavidyalaya, Indore (M.P.) sponsored by Madhya Pradesh Council of Science & Technology, Bhopal and organized by School of Biochemistry, DAVV, Indore held on 14th September 2013. • Attended “International workshop on Statistical Skills” at Indore M.P (India) organized by International Science Congress Association, held on 8th & 9th August 2015.

Countries of Work Experience	India			
Languages	Languages	Speaking	Reading	Writing
	English	√	√	√
	Hindi	√	√	√
Brief Profile	With over 10+ years of total experience in the environment field. I have taught Environmental Science subject at PG (M.Sc.) level in an aided degree college for around 8 years. I taught papers such as Environmental law and legislation & EIA, air pollution, climatology & meteorology, water pollution, and environmental microbiology & biotechnology in M.Sc. Environmental Science. Along with this, during my PhD, I also worked as a Project Assistant and JRF in a DST funded project for more than 2 years. I have around two years of work experience in the environmental consultancy as an Executive-EHS at EHS Consultants, Indore. In this role, conducted air and water monitoring and soil sampling and data interpretation, coordination with various Govt. organizations, EIA report preparation, environmental statement report preparation as per form V, QMS management systems design and documentation, awareness trainings to associates on operation and effective treatment of process and domestic wastewater, workers awareness training sessions (EMS &/or OHSMS), training on identification of environmental aspects & impact evaluation, competence trainings to workers on OCP's related to chemical handling, waste management and Occupational Health and Safety etc. I have also around one year of experience as Senior Environmental Officer at Enkay Enviro Services Pvt. Ltd., Jaipur. In this role, prepare Draft and Final Environmental Impact Assessment (EIA) reports for industrial projects to support the Environmental Clearance (EC) process as per regulatory guidelines. Prepare technical presentations for regulatory authority meetings (such as EAC/SEIAA), ensuring clear communication of environmental impacts, mitigation measures, and compliance strategies. Collaborated with multidisciplinary teams to gather baseline environmental data, assess project impacts, and integrate findings into structured EIA documentation.			
Work Undertaken that Best Illustrates Capabilities to Handle the Task Assigned				
Position Held: Senior Environmental Officer (SEO) Year: Aug 2024 to May 2025 Role of candidate (Activities): In this role, prepared Draft and Final Environmental Impact Assessment (EIA) reports for industrial projects to support the Environmental Clearance (EC) process as per regulatory guidelines. Prepared technical presentations for regulatory authority meetings (such as EAC/SEIAA), ensuring clear communication of environmental impacts, mitigation measures, and compliance strategies. Collaborated with multidisciplinary teams to gather baseline environmental data, assess project impacts, and integrate findings into structured EIA documentation. Familiar with all EIA-related documentation, including Form 1, Pre-feasibility Reports, Terms of Reference (ToR), EMPs (Environmental Management Plans). Well-versed in the EIA process related documents and terminologies, including PFR, Executive Summary, EDS, ADS, CCR etc.				
Position Held: Assistant Professor Year: Sept 2015 to August 2023 Role of candidate (Activities): Taught Environmental Science at the postgraduate (M.Sc.) level, covering core theoretical				

concepts as well as applied environmental topics. Guided M.Sc. students in practical laboratory experiments, data interpretation, and report preparation. Responsible for setting question papers for university M.Sc. Environmental Science examinations and evaluating answer sheets for both university and its affiliated college exams. Served as invigilator for university, state-level, and central-level examinations conducted at the college. Appointed by the university as an external practical examiner for conducting practical exams and viva-voce at affiliated colleges. Nominated as Centre Superintendent by the university for supervision the entire examination process at an affiliated college for one academic year.

Name of assignment or project: Department of Science and Technology (Ministry, GOI) funded project title “Design and Development of Horizontal Gasifier for Biomass Materials” for Centre of Energy Studies and Research (CESR), Devi Ahilya Vishwavidyalaya, Indore.M.P.

Position Held: Project Assistant

Year: Nov 2012 to July 2013

Role of candidate (Activities): Conducted literature review and contributed to experimental design. Performed data collection, analysis and interpretation. Supported the preparation of publications and presentations. Collaborated with Principal Investigator of the project to ensure timely progress of project milestones.

Name of assignment or project: Department of Science and Technology (Ministry, GOI) funded project title “Design and Development of Horizontal Gasifier for Biomass Materials” for Centre of Energy Studies and Research (CESR), Devi Ahilya Vishwavidyalaya, Indore.M.P.

Position Held: Junior Resaerch Fellow (JRF)

Year: Aug 2013 to Feb 2015

Role of candidate (Activities): Conducted literature review and contributed to experimental design. Performed data collection, analysis and interpretation. Supported the preparation of publications and presentations. Collaborated with Principal Investigator of the project to ensure timely progress of project milestones.

Position Held: Executive-EHS

Year: July 2009 to March 2011

Activities performed:

Conducted air and water monitoring and soil sampling and data interpretation, coordination with various Govt. organizations, EIA report preparation, environmental statement report preparation as per form V, QMS management systems design and documentation, awareness trainings to associates on operation and effective treatment of process and domestic wastewater, workers awareness training sessions (EMS &/or OHSMS), training on identification of environmental aspects & impact evaluation, competence trainings to workers on OCP’s related to chemical handling, waste management and Occupational Health and Safety etc.

Certification

I hereby declare that the above information given is true to the best of my knowledge and belief. This CV correctly describes my qualifications, experience and about myself.
