EDUCATION

National Forensic Sciences University

Gandhinagar, India

M.Sc. Forensic Science with Specialization in Forensic Physics and Ballistics

- Secured 7.76 SPI
- Courses covered – Audio Recognition and Video Analysis, Advances in Forensic Ballistics and Armor Materials, Concept of Digital forensics, etc.

Christ University

Bangalore, India

Bachelors in Science (Life Sciences and Chemistry)

- Secured distinction in more than 12 courses
- Facilitated academic duties, departmental and cultural events as the Class Representative.
- Organized '**Bio Gala**'- intercollege life science departmental event which included academic, extra-curricular and recreational activities.

ACADEMIC PROJECTS

Audio, Video, and Image Forensics

- Collected and preserved samples of **CCTV footage**, performed frame and shot by shot extraction and enhancement of CCTV clips using forensic tools using AMPED5 software.
- Studied about **audio recognition** methods, voiceprint analysis and its **applications** in Security, Crime Scenes, and other areas.

Forensic Ballistic and Armor Materials

- Prepared a report on various **Advanced Armor Materials** (UHMWPE, Kevlar, etc.)

Toxicology

- Analyzed various **Heavy Metal Poisons** (Lead, Mercury etc.) using Acid Digestion Method.

Molecular Biology

- Performed test on human blood for **CBC, ELISA** test and various parasitic diseases.
- Studied the **DNA structures** extracted from various Organisms (bacteria, plant, and animal) using Phenol Chloroform Technique.

CO-CURRICULARS

-
- Gained knowledge on **Rapid DNA Solutions for Law Enforcement** in a workshop conducted by National Forensic Science University (NFSU).
 - Participated in 5 days Symposium on **Currents Trends in Forensic Trace Analysis** conducted by Centre for Forensic Science Research and Education (CFSRE), U.S. and learnt about fingerprint analysis, gunshot residue and heavy metals on crime scene.
 - Studied about the genetic material, translation and transcription in a course- **Genomics: Decoding the Universal Language of Life** from University of Illinois.
 - Presented a research report on **Blowflies: Calculating Post-Mortem Interval (PMI)**.

EXTRA-CURRICULARS

-
- Completed **Soft Skill Development** course from NPTEL to enhance my interpersonal communication skills.
 - Studied about Venomous **Snakes** of Indian and Australian origin, types of venom, extraction methodology and impact on human anatomy.

HOBBIES

Playing guitar, Sketching, Writing, Playing Cricket

CERTIFICATES

Qualified for Ph.D. eligibility (December- 2024 and June- 2025)
